

VERENIGING VOOR POLITIEKE WETENSCHAPPEN

5th edition of the political science conference
'Belgium: State of the Federation'
Tuesday 20 December 2016 @ Ghent University

Call for papers

The two Belgian political science associations – *Vereniging voor Politieke Wetenschappen* and *Association belge francophone de science politique* – organize their fifth conference on 'Belgium: The State of the Federation'. This conference will again be an excellent opportunity to discuss results of political science research on Belgium with colleagues working on similar research domains. We welcome papers that deal with any aspect of politics in Belgium. Topics could include electoral and party politics, issues of political representation, social and economic questions, institutional reform, policy-making analyses, etc. Analyses could focus at any policy level (including the local, European and international level). Both studies with a specific focus on the situation in (or the role of) Belgium and studies that compare Belgium in international perspective are possible.

Please send a paper proposal to bram.wauters@ugent.be by 1 October at the latest.

The organizing committee:

Bram Wauters, Kristof Steyvers, Carl Devos, Nicolas Bouteuca, Gilles Pittoors, Sofie Marien and Min Reuchamps
